

Fig. 1.

This diagram shows a mechanical assembly in a perspective view. A main cylindrical body (1) is shown with a handle (2) at the bottom. A vertical rod (31) extends upwards from the body, connected to a piston (32). The piston is seated within a cylinder (11) and is connected to a valve (14) via a rod (13). A spring (15) is shown coiled around the rod (13). The assembly includes various internal components like a valve (14) and a spring (15). The handle (2) has a flange (6) and a central shaft (4) with a nut (5) and a cap (10). The bottom of the handle has a flange (64) and a central shaft (4) with a nut (5) and a cap (10). The handle (2) has a flange (6) and a central shaft (4) with a nut (5) and a cap (10). The handle (2) has a flange (6) and a central shaft (4) with a nut (5) and a cap (10).
